For more than 100 years, Foster Swift Collins & Smith has provided outstanding client service and legal excellence. They pride themselves on strong community involvement and deliver comprehensive services for businesses, organizations, municipalities, families and individuals across Michigan, the nation and beyond.

PROJECT OVERVIEW

OBJECTIVE: First, convert a traditional law library into an adaptable, multi-purpose room with a contemporary vibe - functioning as a welcome center, training room and an entertainment and events space. Second, update waiting areas with comfortable, fresh and leading-edge lounge seating reflecting client's brand and culture.

SOLUTION: DBI provided mobile furnishings (lounge seating, training tables and stacking chairs, powered breakout stations and mobile whiteboards) as components of an organic workspace that maximizes the real estate and can adapt to a wide variety of workstyles and evolving needs.

Designer: Pace Howe Design

Furnishings and Installation: DBI
