GREATER LANSING CONVENTION AND VISITORS BUREAU

Lansing, MI

Situated blocks from the State Capitol building in the vibrant Stadium District of downtown Lansing is the Greater Lansing Convention and Visitors Bureau. The GLCVB markets the region as a travel destination and serves as a resource for event planners and other local businesses. They were looking for a fresh perspective with a bright and cheerful space to welcome visitors and businesses alike.

Objective: The client wanted to create a visitors center with computer access for visitors to order tickets to upcoming events, display brochures, and create a small merchandise area. They wanted new efficient staff offices, a flexible boardroom and media center.

Outcome: Using Haworth Compose systems, Improv seating and stools along with Krug and OFS, DBI was able to compliment the unique design of the architectural firm and meet the needs of the GLCVB.

Furnishing/Installation: DBI
Design Partners: Mayotte Group Architects
