

Michigan Realtors® is an integrated advocacy and communications force for real estate professionals in the State of Michigan.

OBJECTIVE: Design and create a multi-functional, “hip and cool” work space with a cutting-edge vibe.

OUTCOME: Through inspired space planning, DBI created a new footprint allowing for greater functionality as the existing mailroom was transformed into a multi-functional environment. Also, by adding a new color palette, textures, fixtures and furnishings, DBI created a clean, modern aesthetic in the client’s work-room reflecting their wish for a hip and cool space.

“DBI turned, what was a very disorganized space, into a wonderful, productive work environment. The space is now much more open and we love our workstations - they’re so cool and colorful and provide all the functionality we need. We couldn’t be happier with both the outcome and DBI.”
Jenn Morden - Project Specialist
