

Belong Power 65W Charging Guide

The Belong Power 65W power suite and power cube offer rapid charging when and where you need it. The following explains the wattage distribution at each port based on the type and number of devices plugged in to charge.

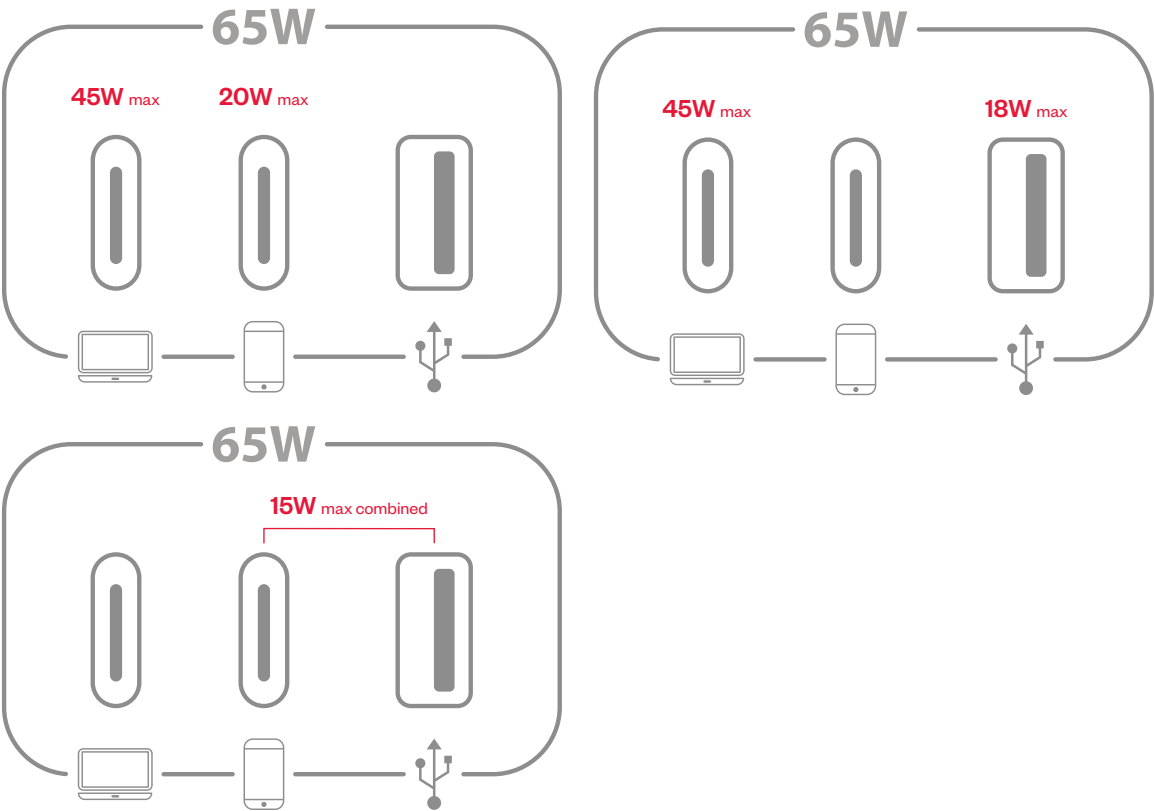

Single-Port Charging

One device plugged into one of the three charging ports.
No other charging ports utilized.

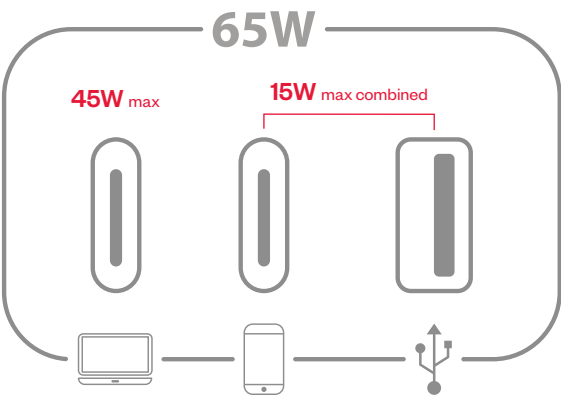

Two-Port Charging

Two devices plugged into two of the three charging ports.
Third port is not utilized.

Three-Port Charging

Three devices plugged into all three of the charging ports.

Belong power suite, power cube, and plug strip are not designed or UL/CSA listed for “daisy-chain” applications.
